Heuer. A stainless steel manual wind chronograph wristwatch

Camaro, Ref:7743 T, Case No.168759, Circa 1970

17-jewel Valjoux Cal.7730 manual wind movement signed on the bridge Heuer Leonidas, matt black dial, applied mirror finished baton hour markers and luminous dot tips, printed outer minute divisions and tachymeter scale, steel mirror finished baton hands with luminous inserts, white chronograph hand, black subsidiary dials at 3 and 9 for running seconds and 30 minute recording, dial signed Camaro Heuer below 12, brushed and polished cushion shaped steel case with screw down case back signed Heuer Leonidas inside, signed crown at 3 flanked by twin fluted chronograph pushers, fitted black leather strap with buckle, case, dial and movement signed

37mm.

€960 - 1,400

Jack Heuer had a keen interest in the America market and having gained exposure to the US public through his equipment being used for timing motorsport events, he chose to name one of his models to leverage this further. The Chevrolet Camaro, introduced in 1966, was used as the Indianapolis 500 pace car and provided the perfect name for a new model from Heuer. Produced from the 1968 to 1972 the Camaro represents an unusual and fairly rare model, making this the ideal choice for those looking for something other than a Carrera.

2

Heuer. A stainless steel manual wind chronograph wristwatch

Camaro, Ref:73643 T, Case No.192600, Circa 1968

17-jewel Valjoux Cal.7736 manual wind movement signed on the bridge Heuer Leonidas, silvered dial with applied mirror finished baton hour markers and luminous dot tips, outer minute divisions with outer charcoal tachymeter scale, dial signed Camaro Heuer below 12, steel mirror finished baton hands with luminous inserts, orange chronograph hand, charcoal subsidiary dials at 3, 6 and 9 for running seconds, 30 minute and 12 hour recording, brushed and polished cushion shaped steel case with screw down case back signed Heuer inside, signed crown flanked by twin fluted chronograph pushers, fitted black perforated leather strap with Heuer stainless steel buckle, case, dial and movement signed

37mm.

€1,700 - 2,200

This particular watch features the rare combination of a silvered dial with charcoal subsidiaries. A Camaro with this colour scheme can be seen on the wrist of the great Hollywood actor Jack Lemmon in a number of period photos of the star from the 1970's.

3

Heuer. A stainless steel manual wind chronograph wristwatch

Camaro, Ref:7743, Case No.168779, Circa 1970

17-jewel Valjoux Cal.7730 manual wind movement signed on the bridge Heuer Leonidas, silvered dial with applied mirror finished baton hour markers and luminous dot tips, printed outer minute divisions, steel mirror finished baton hands with luminous inserts, black chronograph hand, silvered subsidiary dials at 3 and 9 for running seconds and 30 minute recording, dial signed Camaro Heuer below 12, brushed and polished cushion shaped steel case with screw down case back signed Heuer Leonidas inside, signed crown flanked by twin fluted chronograph pushers, fitted black leather strap with buckle, case, dial and movement signed

37mm.

€1,000 - 1,800

4

Heuer. A stainless steel manual wind chronograph wristwatch

Camaro, Ref:7220 T, Case No.97628, Circa 1968

17-jewel Valjoux Cal.72 manual wind movement signed on the bridge Heuer Leonidas, silvered dial with applied mirror finished baton hour markers and luminous dot tips, outer printed minute divisions and tachymeter scale, steel mirror finished baton hands with luminous inserts, black chronograph hand, silvered subsidiary dials at 3, 6 and 9 for running seconds, 30 minute and 12 hour recording, dial signed Camaro Heuer below 12, brushed and polished cushion shaped steel case with screw down case back signed Heuer Leonidas inside, signed crown flanked by twin chronograph pushers, fitted black rally leather strap with buckle, case, dial and movement signed

37mm.

€1,200 - 1,800

5

Heuer. A plated and plastic bodied manual wind chronograph wristwatch

Temporada, Ref:733.809, Circa 1972

17-jewel Valjoux Cal.7733 manual wind movement, silvered dial with white on grey minute track and applied polished steel block hour markers with orange inserts and luminous dots to the inside, outer pulsation and tachymeter scales, dial signed Heuer Temporada, brushed baton hands with luminous inserts and orange tips, orange chronograph hand, grey cushion shaped subsidiary dials at 3 and 9 for running seconds and 30 minute recording, Heuer signed crown flanked by twin chronograph pushers, cushion shaped case with chrome plated brass bezel and plastic rear housing, fitted black textured rubber Tropic Sport strap and buckle, case, dial and movement signed

42mm.

€600 - 840

The Heuer Temporada was named after the famous Argentine race series that took place in the late 1940's and early 1950's. In these races, many of the greats such as Juan Manuel Fangio honed their skills. Featuring a colour scheme reminiscent of the early 1970's and shared with the Camaro of the same era, the Temporada uses the same Valjoux 7733 movement as the Autavias and Carreras from the same period. With its unusual case constructions utilising a plastic rear portion and metal bezel the movement can only be removed through the front of the watch.

6

Heuer. A stainless steel manual wind chronograph wristwatch

Autavia, Ref:3646 M, Case No.52430, Circa 1963

17-jewel Valjoux 92 manual wind movement signed on bridge Ed Heuer & Co, matt black dial, applied polished faceted hour markers, printed white outer minute divisions with luminous dots at 5 minute intervals, polished Dauphine hands with luminous inserts and white chronograph hand, silvered subsidiary dials at 3 and 9 for running seconds and 45 minute recording, polished steel tonneau shaped case with screw down back signed Ed Heuer & Co inside, bi-directional rotating calibrated bezel with black background and luminous triangle at 12, Heuer signed crown flanked by twin round chronograph pushers, fitted Heuer black leather strap and stainless steel Heuer buckle, case, dial and movement signed *38mm*.

€1,700 - 2,200

The inside of the case back and the bridge on this particular Autavia are signed "ED. HEUER & Co SWISS". This was the company's registered name prior to the 1964 merger with Leonidas, after which it officially became Heuer-Leonidas. Production in this configuration was only between 1962 and 1963.

7

Heuer. A stainless steel manual wind chronograph wristwatch

Autavia, Ref:3646, Circa 1965

17-jewel Valjoux 92 manual wind movement signed on bridge Heuer Leonidas, matt black dial with applied polished faceted hour markers with luminous dot tips, printed white outer minute divisions, polished baton hands with luminous inserts and white chronograph hand, silvered subsidiary dials at 3 and 9 for running seconds and 45 minute recording, polished steel tonneau shaped case with screw down back signed Heuer Leonidas inside, bi-directional rotating bezel with black 300 to 60 tachymeter scale, Heuer signed crown at 3 flanked by twin round chronograph pushers, fitted black leather strap and stainless steel Heuer buckle, case, dial and movement signed *38mm*.

€960 - 1,400

8

Heuer. A stainless steel manual wind chronograph wristwatch

Autavia, Ref:7763 T, Case No.132742, Circa 1968

17-jewel Valjoux 7730 manual wind movement, matt black dial, applied polished faceted hour markers with luminous dot tips, printed white outer minute divisions, dial signed Autavia Heuer below 12, polished baton hands with luminous inserts and white centre chronograph hand, silvered subsidiary dials at 3 and 9 for running seconds and 30 minute recording, polished steel tonneau shaped case with snap down back, bi-directional rotating bezel with black 400 to 60 tachymeter scale, Heuer signed crown at 3 flanked by twin chronograph pushers, fitted black leather strap, case, dial and movement signed *40mm*.

€1,200 - 1,800

9

Heuer. A stainless steel manual wind chronograph wristwatch

Autavia, Ref:2446 H, Case No.89595, Circa 1967

17-jewel Valjoux 72 manual wind movement signed on bridge Heuer Leonidas, matt black dial with applied polished faceted hour markers with luminous tips, printed white outer minute divisions, dial signed Autavia Heuer below 12, polished baton hands with luminous inserts and white centre chronograph hand, silvered subsidiary dials at 3, 6 and 9 for running seconds, 30 minute and 12 hour recording, polished steel tonneau shaped case with screw down back signed Heuer Leonidas inside, bi-directional rotating bezel with black calibrated hour scale, signed crown flanked by twin round chronograph pushers, fitted black leather strap with white stitching, case, dial and movement signed *38mm*.

€1,400 - 1,700

Having produced the Autavia dashboard timer since 1933, applying the name to the dial of a wristwatch clearly indicated the connection to the timing of motoring and aviation events. This later model 2446 is differentiated from the earliest production models by the signing of Heuer-Leonidas on the bridge and case back. This model also featured baton, as opposed to lance alpha hands, which can be seen on lot 6 in this sale.

10

Heuer. A gold plated quartz digital chronograph bracelet watch
Chronosplit, Ref:102.705, Case No.354707, Circa 1978
Cal.102 quartz movement, black dial with two rectangular LCD displays at 12 and 6 for time and chronograph functions respectively, five pushers to adjust all features including light, split time and laps, one recessed set button at 4, gold plated case with snap down back, fitted gold plated Heuer link bracelet with folding metal clasp, together with original fitted box, instructions, swing tag, spare bracelet half and clasp, case, dial and movement signed
40mm.
€850 - 1,000

Introduced at a time when quartz movements were viewed as a more accurate companion to high end mechanical pieces and not the near death blow that they became, the Chronosplit represented the first digital, fully electronic watch in the world to also include a chronograph, when it arrived in 1975. Initially offered with one LCD and LED display, the example offered here is the later technical development introduced in 1976 with dual LCD displays. In brushed gold plated finish with matching bracelet, it is very rare to find a Chronosplit with box and papers, especially one in working order.

11

Heuer. A stainless steel quartz dual dial digital calendar chronograph bracelet watch
Chronosplit Manhattan GMT, Ref:104.403, Case No.363514, Circa 1978
Quartz movement, silvered analogue dial with matt grey surround, applied faceted polished hour markers with inner luminous dots and printed outer minute track, steel hands with luminous inserts and black centre seconds, date aperture at 4, digital LCD display for alternate time, date and chronograph function at 12, elongated hexagonal stainless steel case with two pushers at the top, winding crown set at the base and flush reset button at 10, fitted Heuer stainless steel link bracelet with signed folding clasp and locking pin, together with original fitted box and instructions, case, dial and movement signed
36mm.
€850 - 1,000

Launched in 1977, the Chronosplit Manhattan GMT was the world's first quartz wrist chronograph with both an analogue and digital display, accurate to 1/100th second. The example offered here comes complete with rare original box and papers.

12

Heuer. A stainless steel automatic chronograph bracelet watch
AudiSport, Circa 1984
17-jewel Lemania Cal.5100 automatic movement signed on the rotor, matt black dial with luminous baton hour markers, inner Arabic numerals showing minutes in 5 minute increments, outer minute divisions and raised 500 to 60 tachymeter scale, dial signed Heuer AudiSport Automatic, white baton hands with luminous inserts, orange chronograph hand and orange arrow tipped hand for 60 minute recording, date aperture at 3, subsidiary dials at 6 and 9 for running seconds and 12 hour recording, blasted and anodised tonneau shaped case with polished stainless steel snap on back, crown at 3 flanked by twin chronograph pushers, fitted blasted and anodised link bracelet with stainless steel folding clasp, case and dial signed
40mm.
€2,200 - 2,600

The Heuer AudiSport was a limited edition model made for Audi by Heuer in the mid 1980s. Although there is no official Heuer reference number for this piece, it shares its design with many contemporary watches sold by Lemania.

13

Heuer. A black PVD coated automatic chronograph calendar bracelet watch
Ref:510.501, Movement No.04037424, Circa 1985
17-jewel Lemania Cal.5100 automatic movement signed on the rotor Lemania, matt black dial, printed luminous baton hour markers and outer minute divisions, inner white printed Arabic numerals at 5 minute increments, raised printed white on black 350 to 50 tachymeter scale, dial signed Heuer Automatic, white baton hands with luminous inserts, orange chronograph hand and orange arrow tipped hand for 60 minute recording, day and date apertures at 3, subsidiary dials at 6, 9 and 12 for running seconds, 12 hour recording and 24 hour calibrated second time zone with luminous filled hand, black PVD coated tonneau shaped case with concave top surface around the thin plain bezel and stainless steel screw down back signed Heuer 5100 inside, Heuer signed black anodised crown flanked by twin fluted chronograph pushers, fitted black PVD coated Heuer link bracelet with folding clasp, case, dial and movement signed
41mm.
€1,200 - 1,800

14

Heuer. A stainless steel manual wind chronograph wristwatch

Carrera, Ref:2447 D, Case No.56420, Circa 1964

17-jewel Valjoux Cal.72 manual wind movement signed on the bridge Ed Heuer & Co, silvered dial, applied faceted mirror finished steel baton hour markers with luminous dot tips, outer blue decimal scale with black 1/100 markings on raised outer section, dial signed Carrera Heuer, mirror finished steel baton hands with luminous inserts and black centre chronograph hand, subsidiary dials at 3, 6 and 9 for running second, 30 minute and 12 hour recording, polished steel case with screw down back signed Ed Heuer & Co inside, unsigned crown flanked by twin chronograph pushers, fitted perforated black leather strap, case, dial and movement signed 36mm.

€1,400 - 1,700

In late 1964 Heuer merged with Leonidas and as such, movements and the interior of case backs were stamped with both names going forward. The compensated balance wheel, blank crown, hexagonal case back and Ed Heuer & Co signing inside indicate that this is a rare, early pre-merger example of the 2447 D, with the signature blue decimal scale contrasting nicely with the white dial.

15

Heuer. A stainless steel manual wind chronograph wristwatch

Carrera, Ref:7753 T, Case No.107205, Circa 1970

17-jewel Valjoux Cal.7730 manual wind movement signed on the bridge Heuer Leonidas, silvered dial, mirror finished steel faceted baton hour markers and luminous dot tips, outer 1000 to 60 tachygraph scale and raised white outer minute divisions, dial signed Carrera Heuer, mirror finished steel baton hands with luminous inserts and black chronograph hand, contrasting black subsidiary dials at 3 and 9 for running seconds and 30 minute recording, polished stainless steel case with screw on back signed Heuer Leonidas inside, Heuer signed crown at 3 flanked by twin chronograph pushers, fitted black perforated leather strap with stainless steel buckle, case, dial and movement signed 36mm.

€1,400 - 1,700

The so called 'Panda' dials with contrasting sub-registers are very rare and sought after collectors pieces. The case has the original chronograph pushers and Heuer signed crown and the earlier all steel hour markers have been slightly redesigned and now show black inserts.

16

Heuer. A stainless steel manual wind chronograph wristwatch

Carrera, Ref:3647 S, Case No.68027, Circa 1966

17-jewel Valjoux Cal.92 manual wind movement signed on the bridge Heuer Leonidas, silvered dial with applied mirror finished steel faceted baton hour markers and luminous dot tips, black raised outer minute divisions, dial signed Carrera Heuer, mirror finished steel baton hands with luminous inserts and black centre chronograph hand, silvered subsidiary dials at 3 and 9 for running seconds and 45 minute recording, polished stainless steel case with screw on back signed Heuer Leonidas inside, Heuer signed crown at 3 flanked by twin chronograph pushers, fitted black perforated leather strap with stainless steel Heuer buckle, case, dial and movement signed 36mm.

€1,800 - 2,400

The Carrera 45 reference 3647 had a rather short lifecycle. The Carrera 30 with the Valjoux 7730 movement replaced the Carrera 45 model after the production of the Valjoux 92 movement had stopped around 1969.

17

Heuer. A stainless steel manual wind chronograph wristwatch

Carrera, Ref:3647 S, Case No.73282, Circa 1966

17-jewel Valjoux Cal.92 manual wind movement signed on the bridge Heuer Leonidas, silvered dial with applied mirror finished steel faceted baton hour markers and luminous dot tips, raised outer minute divisions, dial signed Carrera Heuer, mirror finished steel baton hands with luminous inserts and black chronograph hand, silvered subsidiary dials at 3 and 9 for running seconds and 45 minute recording, polished stainless steel case with screw on back signed Heuer Leonidas inside, Heuer signed crown flanked by twin chronograph pushers, fitted black perforated leather strap with stainless steel Heuer buckle, case, dial and movement signed 36mm.

€1,800 - 2,400

18

Heuer. A stainless steel manual wind chronograph wristwatch

Carrera Dato, Ref:3147 S, Case No.99628, Circa 1968

17-jewel Landeron Cal.189 manual wind movement signed on the bridge Heuer Leonidas, silvered dial, faceted polished baton hour markers with luminous dot tips, raised outer minute divisions, dial signed Carrera Heuer below 12, polished steel baton hands with luminous inserts, black centre chronograph hand, date aperture at 9, subsidiary dial at 3 for 45 minute recording, polished steel case with screw down back signed Heuer Leonidas inside, signed crown at 3 flanked by twin chronograph pushers, fitted black leather strap with Heuer buckle, case, dial and movement signed 36mm.

€1,700 - 2,200

The first version of this Carrera reference 3147 had a date window at 12 and was only produced for one year. The second version shows a different date window position at 9. The new configuration gives an asymmetric modern twist to the dial.

19

Heuer. A stainless steel manual wind chronograph wristwatch

Carrera, Ref:2447 S, Case No.102468, Circa 1965

17-jewel Valjoux Cal.72 manual wind movement signed on the bridge Heuer Leonidas, silvered dial, applied mirror finished faceted steel hour markers and luminous dot tips, raised outer minute divisions, dial signed Carrera Heuer below 12, polished steel baton hands with luminous inserts and black chronograph hand, silvered subsidiary dials at 3, 6 and 9 for running seconds, 30 minute and 12 hour recording, polished stainless steel case with screw down back signed Heuer Leonidas inside, Heuer signed crown flanked by twin chronograph pushers, fitted perforated black leather strap with stainless steel Heuer buckle, case, dial and movement signed 36mm.

€1,700 - 2,200

20

Heuer. A stainless steel manual wind chronograph wristwatch

Carrera, Ref:2447 D, Case No.104822, Circa 1970

17-jewel Valjoux Cal.72 manual wind movement signed on the bridge Heuer Leonidas, silvered dial, applied faceted mirror finished steel baton hour markers, outer black decimal scale with 1/100 markings, dial signed Carrera Heuer, mirror finished steel baton hands with luminous inserts and black chronograph hand, subsidiary dials at 3, 6 and 9 for running seconds, 30 minute and 12 hour recording, polished steel case with screw down back signed Heuer Leonidas inside, Heuer crown flanked by twin chronograph pushers, black Heuer leather strap with Heuer stainless steel buckle, case, dial and movement signed 36mm.

€1,800 - 2,600

The Carrera was fitted with an elegant stainless steel case, a clear and legible three-dimensional dial with raised indices and recessed sub counters. The 1/100 decimal division on the edge of the dial in blue contrasts nicely with the matt finish on the white dial. This watch has the correct Heuer signed crown and original pushers. The Valjoux 72 movement shows the Heuer Leonidas signature on the bridge which dates the watch to after the merger from ED Heuer to Heuer Leonidas in late 1964.

21

Heuer. A black PVD manual wind chronograph wristwatch

Ref:12, Circa 1979

17-jewel Valjoux Cal.7734 manual wind movement, matt black dial with printed white baton hour markers with luminous dots inside, outer minute divisions and raised 1000 to 60 tachymeter scale, dial signed Heuer, white baton hands with luminous inserts and orange chronograph hand, date aperture at 6, grey subsidiary dials at 3 and 9 for running seconds and 30 minute recording, PVD coated brass tonneau shaped case with screw down back, crown flanked by twin chronograph pushers, fitted black leather strap with buckle, dial signed

41mm.

€480 - 600

22

Heuer. A stainless steel automatic bracelet watch

Diver, Ref:844/3, Circa 1984

25-jewel ETA Cal.2872 automatic movement, navy dial with luminous dot hour marks, luminous batons at 6 and 9 and large luminous triangle at 12, white printed outer minute divisions, dial signed Heuer 200 Meters Professional, polished Mercedes hands with luminous inserts and centre seconds, date aperture at 3, brushed steel tonneau waterproof type case with extended crown shoulders and screw down back signed Heuer Leonidas inside, unidirectional rotating calibrated bezel with black background, TAG Heuer logo on crown, fitted Heuer stainless steel link bracelet with folding clasp, case, dial and movement signed

42mm.

€480 - 600

23

Heuer. A stainless steel automatic bracelet watch

Diver 1000 Series, Ref:844/3, Circa 1983

17-jewel ETA Cal.2872 automatic movement signed on the rotor Heuer, navy dial, luminous dot hour markers, luminous batons at 6 and 9 and large luminous triangle at 12, white printed outer minute divisions, dial signed Heuer 1000 Automatic 200 Meters Professional, polished Mercedes hands with luminous inserts and centre seconds, date aperture at 3, brushed steel tonneau waterproof type case with extended crown shoulders and screw down back signed Heuer, unidirectional rotating calibrated black bezel, fitted Heuer stainless steel link bracelet with folding clasp, case, dial and movement signed

42mm.

€600 - 840

24

Heuer. A black PVD coated automatic wristwatch

Regatta, Ref:134.601, Movement No.3417277, Circa 1983

17-jewel Lemania Cal.1345 automatic movement, black dial with applied polished baton hour markers at 3, 6 and 9 with luminous dot tips, outer calibrated white minute scale, dial signed Heuer Regatta Automatic 100 metres, black and white baton hands with luminous inserts and orange second hand, 5 apertures in an arc between 10 and 2 containing rotating blue and orange disc serving as a 10 minute countdown timer, black PVD coated tonneau shaped case with screw down stainless steel back, black unidirectional rotating reverse calibrated bezel with luminous arrow insert at 12, black anodized Heuer signed screw down crown at 3 and black push button at 2 to reset second hand and countdown apertures, fitted black leather Heuer by Tag Heuer strap and Heuer buckle, case, dial and movement signed

43mm.

€1,200 - 1,800

An important feature for any watch designed with competition sailing in mind is a minute countdown timer to the start of the race. Many manufacturers have offered this complication in different fashions; Rolex with their Yachtmaster range and, more recently, Audemars Piguet with their pieces for Ernesto Bertarelli's Team Alinghi.

In November 1964 Aquastar received a Swiss patent for a "piece of horology allowing the counting of a restricted number of minutes" and in 1965 Heuer became the distributors for Aquastar watches which included a model called the Regate, featuring apertures in the dial that change colour as a 10 minute countdown take place. Around 1976 Heuer began producing their own model with the complication and much improved movement, followed by a complete redesign in 1983 featuring the Autavia style case shown here.

Representing a novel and useful complication for those involved in competitive sailing, the Regatta is sure to attract attention at Le Port Hercule.

25

Heuer. A stainless steel automatic wristwatch

Regatta, Ref:134.603, Movement No.3417632, Circa 1983

17-jewel Lemania Cal.1345 automatic movement, silvered dial with applied polished baton hour markers at 3, 6 and 9 with luminous dot tips, outer calibrated black minute scale, dial signed Heuer Regatta Automatic 100 metres, black baton hands with luminous inserts, orange second hand, 5 apertures in an arc between 10 and 2 containing rotating blue and orange disc serving as a 10 minute countdown timer, blasted and anodised tonneau shaped case with screw down stainless steel back, silvered unidirectional rotating reverse calibrated bezel with luminous arrow insert at 12, Heuer signed screw down crown at 3 and fluted push button at 2 to reset second hand and countdown apertures, fitted black leather strap with blue stitching, case, dial and movement signed

43mm.

€600 - 840

26

Heuer. A stainless steel automatic chronograph wristwatch
Carrera, Ref:510.523, Movement No.4031307, Circa 1985
17-jewel Lemania Cal.5100 automatic movement signed Lemania on the rotor, matt black dial with printed luminous baton hour markers and white outer minute divisions, inner white printed Arabic numerals at 5 minute increments, raised printed white on black 500 to 60 tachymeter scale, dial signed Carrera Heuer Automatic Chronograph, white baton hands with luminous inserts, orange chronograph hand and orange arrow tipped hand for 60 minute recording, date apertures at 3, subsidiary dials at 6, 9 and 12 for running seconds, 12 hour recording and 24 hour calibrated second time zone with luminous filled hand, brushed and polished stainless steel tonneau shaped case, stainless steel screw down back, Heuer signed crown flanked by twin chronograph pushers, fitted black leather strap, dial signed
38mm.
€960 - 1,400

In 1982 Heuer was sold to a group of investors led by Piaget, which at the time owned Lemania. Faced with the competition of the Japanese quartz revolution, the Heuer's in-house calibres 11, 12, 14 and 15 were phased out and replaced with the Lemania 5100 movement.

In 1984 Heuer introduced its first range powered by the Lemania movement, including two with the historic Carrera name on the dial. In 1985 the investor group sold Heuer to the Techniques D'Avant Garde (TAG) group ending the movement partnership making this one of the models with the shortest lifecycle.

27

Heuer. A stainless steel manual wind chronograph wristwatch
Carrera, Ref:73453, Case No.257500, Circa 1974
17-jewel Valjoux Cal.7734 manual wind movement signed on the bridge Heuer Leonidas, silvered dial, applied faceted polished hour markers and printed black outer minute track, raised white on charcoal 500 to 60 tachymeter scale, black and grey baton hands with luminous inserts and red chronograph hand, date aperture at 6, subsidiary dials at 3 and 9 for running seconds and 30 minute recording, brushed and polished steel tonneau case with screw down back signed Heuer Leonidas inside, polished bezel, signed crown at 3 flanked by twin fluted chronograph pushers, fitted perforated black leather strap and stainless steel buckle, case, dial and movement signed
39mm.
€720 - 960

28

Heuer. A stainless steel manual wind chronograph wristwatch
Carrera, Ref:73653 S, Case No.155554, Circa 1971
17-jewel Valjoux Cal.7736 manual wind movement signed on the bridge Heuer Leonidas, silvered dial with applied faceted polished hour markers and printed outer minute track, raised black on white 500 to 60 tachymeter scale, dial signed Carrera Heuer below 12, polished steel baton hands with luminous inserts and red chronograph hand, subsidiary dials at 3, 6 and 9 for running seconds, 30 minute and 12 hour recording, brushed steel tonneau case with screw down back signed Heuer Leonidas inside, polished bezel, crown flanked by twin fluted chronograph pushers, fitted perforated black leather strap and Heuer stainless steel buckle, case, dial and movement signed
38mm.
€1,200 - 1,800

29

Heuer. A stainless steel automatic chronograph bracelet watch
Carrera, Ref:1153 N, Circa 1972
17-jewel Cal.12 automatic movement signed on the bridge Heuer, grey/blue dial, applied fluted mirror finished steel baton hour markers with luminous tips, outer minute divisions and raised outer white 500 to 60 tachymeter scale, painted steel baton hands with luminous inserts and orange chronograph hand, date aperture at 6, white subsidiary dials for 30 minute and 12 hour recording at 3 and 9, brushed and polished steel tonneau shaped case with screw down back signed Heuer Leonidas on the inside, signed crown at 9 and fluted chronograph pushers at 2 and 4, polished bezel, fitted Heuer stainless steel bracelet with folding Heuer clasp, case, dial and movement signed
39mm.
€1,800 - 2,400

In 1970 the Heuer factory technicians started to improve the Calibre 11 movement. First the date change mechanism was newly adapted and afterwards the vibration frequency of the automatic movement was increased from 19800 to 21600, resulting in the original Calibre 11 movement becoming the Calibre 12.

This Carrera shows the new dial from 1972 with the enlarged indexes and transitional hands. The dial has a starburst finish and shows the final evolution of the 1 to 12 marked hour sub-dial. The watch further comes on the original racing inspired steel bracelet with the Heuer signed clasp.

30

Heuer. A stainless steel automatic chronograph wristwatch
Carrera, Ref:110573, Circa 1974
17-jewel Cal.12 automatic movement signed on the bridge Heuer, silvered dial with applied faceted block hour markers with luminous dot inserted tips, outer minute divisions, raised outer tachymeter scale, dial signed Carrera Heuer Automatic Chronograph, orange baton hands with luminous inserts, orange chronograph hand, date aperture at 6, subsidiary dials at 3 and 9 for 30 minute and 12 hour recording, brushed and polished tonneau shaped stainless steel case with screw down back signed Heuer Leonidas inside, Heuer signed crown at 9 with fluted chronograph pushers at 2 and 4, fitted perforated black leather strap with Heuer buckle, case, dial and movement signed
39mm.
€960 - 1,400

Influenced by the mid 1970's trend for larger watches, a newly designed Carrera model (reference 110.573 Calibre 12 and 150.573 Calibre 15) was introduced in 1974. It had an enlarged cushion shaped steel case featuring beautiful blue and smoke dials. The dial has a special three band finished reactive to light with interesting effects and the hands are bright orange, contrasting to the brown dial. The case is thicker than on the earlier automatic Carrera models with integrated pushers and crown.

31

Heuer. A stainless steel automatic chronograph wristwatch

Monaco, Ref:1133 G, Case No.162245, Circa 1969

17-jewel Cal.11 automatic movement, slate grey dial with printed circular white minute track and red 5 minute divisions, applied horizontal faceted polished steel hour markers with textured blocks at 2, 4, 8 and 10 and a vertical marker at 12, dial signed Monaco Heuer Automatic Chronograph, polished steel baton hands with luminous inserts and red tips, red chronograph hand, date aperture at 6, subsidiary dials at 3 and 9 for 30 minute and 12 hour recording, brushed square case with special snap down case back, Heuer signed crown at 9, fluted chronograph pushers at 2 and 4, fitted Breitling brown leather strap and associated buckle, case, dial and movement signed

40mm.

€3,000 - 4,000

Jack Heuer searched for a name that would appeal to the chic, high-end crowd that would enjoy the new bold design, racing enthusiasts who would frequent places like Monte Carlo. Heuer had already developed the 'Monte Carlo' stopwatch, a legendary dashboard timepiece used for the 'Rally Monte Carlo' in the works Minis and Porsche 911's. He realised that "Monaco" would appeal to the elite market strongly appreciating the revolutionary chronograph.

The Heuer Monaco, the world's first self-winding rectangular chronograph was introduced with simultaneous press conferences on the 3rd of March 1969 in Geneva and New York. Jack Heuer characterised this as the most important product launch during his career. The newly developed Cal.11 automatic movement used 17 jewels, an unbreakable mainspring, was antimagnetic, and had shock protection, but its most distinctive feature was the placement of the winding crown at the left side. A successful advertising campaign was highlighting that with an automatic chronograph the user would touch the crown only for time setting.

32

Heuer. A stainless steel automatic chronograph bracelet watch

Autavia 'Siffert', Ref:1163 T, Case No.141341, Circa 1970

17-jewel Cal.11 automatic movement signed on the bridge Heuer, white dial with applied polished steel stepped baton hour markers and luminous dot tips, outer minute scale with blue baton markers at 5 minute intervals, dial signed Autavia Heuer Automatic Chronograph, polished steel baton hands with luminous inserts and blue chronograph hand, date aperture at 6, black subsidiary dials at 3 and 9 for 30 minute and 12 hour recording, brushed and polished tonneau stainless steel case with screw down back signed Heuer Leonidas inside, Heuer signed crown at 9 and fluted chronograph pushers at 2 and 4, fitted Heuer stainless steel link bracelet with folding clasp, case, dial and movement signed

42mm.

€2,600 - 3,300

In 1968 Jo 'Seppi' Siffert won both 24 Hours of Daytona and the 12 Hours of Sebring in a Porsche 907 firmly securing his place in motor racing history. His career was brought to a sudden and tragic end in 1971 when his BRM crashed at Brands Hatch, with Siffert unable to free himself, and caught fire. As one of the most collected models from the extensive Autavia range, the distinctive 1163 T features a calibre 11 movement, white dial, blue chronograph hand, tachymeter bezel, black subsidiary dials and blue accents to the dial. This example is an early, post Chronomatic version, apparent due to the case design, subdial 3-6-9-12 divisions on the hour subdial, the style of the applied hour markers and the untidy engraving of Heuer to the movement.

33

Heuer. A stainless steel automatic chronograph wristwatch

Monaco 'Steve McQueen', Ref:1133 B, Case No.161834, Circa 1970

17-jewel Cal.11 automatic movement, blue dial, printed circular white minute track and red 5 minute divisions, applied horizontal faceted polished steel hour markers with textured blocks at 2, 4, 8 and 10 and a vertical marker at 12, dial signed Monaco Heuer Automatic Chronograph, polished steel baton hands with luminous inserts and red tips, red chronograph hand, date aperture at 6, subsidiary dials at 3 and 9 for 30 minute and 12 hour recording, brushed square case with special snap down case back, Heuer signed crown at 9, fluted chronograph pushers at 2 and 4, fitted black leather strap, case, dial and movement signed

40mm.

€4,800 - 6,000

The Monaco model with the reference 1133 B was worn by Steve McQueen in the famous racing film 'Le Mans'. The connection between McQueen and his Monaco had its origins in the relationship between McQueen and Jo Siffert. Jo Siffert, one of the most successful sports car racers of the time, was involved with the filming of the race scenes in 1970. Siffert arranged for other race car and famous endurance drivers, such as Derek Bell, Brian Redman, Rolf Stommelen, David Piper and others to participate too.

For his Gulf Porsche 917 driving scenes, Steve McQueen wanted them to remain as true and original as possible and he insisted on wearing the same style of driving suit as Jo Siffert, with the large Heuer Chronograph logo on the front. The Heuer Monaco was just introduced with its cutting edge design and Steve McQueen decided to wear a Monaco in the film. Gerd Rüdiger Lang, who owns the watch making company Chronoswiss, was a time witness to these events and he himself started during the mid sixties as a young watchmaker at Heuer. He remembers bringing 20 Heuer wristwatches, some stopwatches, Heuer patches and stickers to Le Mans for filming just prior to the race in 1970. The Monaco's starring role on Steve McQueen's wrist helped create its legend, but it was the chronograph's radical look and its complete break with tradition, both inside and outside, that made it stand out. It had a fantastic presence during the film 'Le Mans' of more than 16 minutes.

34

Heuer. A stainless steel manual wind chronograph wristwatch
Autavia, Ref:73363 MH, Case No.213936, Circa 1972
17-jewel Valjoux Cal.7733 manual wind movement signed on the bridge Heuer Leonidas, matt black dial with applied faceted baton hour markers and luminous tips, white printed outer minute divisions with orange markers at 5 minute increments, orange baton hands with luminous inserts, orange chronograph hand, charcoal subsidiary dials at 3 and 9 for running seconds and 30 minute with orange accents, dial signed Autavia Heuer below 12, bi-directional rotating calibrated bezel with black insert, brushed and polished tonneau shaped stainless steel case with screw down back signed Heuer Leonidas inside, signed crown flanked by twin fluted chronograph buttons, fitted black leather strap, case, dial and movement signed
42mm.
€1,200 - 1,800

35

Heuer. A stainless steel automatic chronograph wristwatch
Autavia, Ref:11063 MH, Case No.395838, Circa 1984
17-jewel Cal.12 automatic movement signed on the bridge Heuer, matt black dial with applied white baton hour markers, printed outer minute track, dial signed Autavia Heuer Automatic Chronograph, white baton hands and centre white pointed chronograph hand, date aperture at 6, charcoal subsidiary dials at 3 and 9 for 30 minute with white accents and 12 hour recording, brushed and polished tonneau shaped stainless steel case with screw down back signed Heuer Leonidas inside, unidirectional rotating calibrated bezel with black insert and luminous dot at 12, signed crown at 9 with fluted chronograph buttons at 2 and 4, fitted black leather strap, case, dial and movement signed
42mm.
€1,200 - 1,800

This late model Autavia features the attractive monochromatic dial colour scheme with black background, grey subsidiary dials and white 5 minute markers on the minute subdials.

36

Heuer. A stainless steel manual wind chronograph wristwatch
Autavia, Ref:73663 MH, Case No.201040, Circa 1972
17-jewel Valjoux Cal.7736 manual wind movement signed on the bridge Heuer Leonidas, matt black dial with applied faceted baton hour markers and luminous tips, white printed outer minute divisions with orange markers at 5 minute increments, orange baton hands with luminous inserts, orange chronograph hand, charcoal subsidiary dials at 3, 6 and 9 for running seconds, 30 minute with orange accents and 12 hour recording, dial signed Autavia Heuer below 12, bi-directional rotating calibrated bezel with black insert, brushed and polished tonneau shaped stainless steel case with screw down back signed Heuer Leonidas inside, signed crown flanked by twin fluted chronograph buttons, fitted perforated black leather strap with Heuer buckle, case, dial and movement signed
42mm.
€1,200 - 1,800

Introduced around the same time as the Calibre 11 powered Autavia, the manual wind 73363, and subsequent 73663, featured the same larger case as their automatic sibling, but with the crown in the traditional position between the chronograph pushers at 3 and the tried and tested Valjoux movements.

37

Heuer. A stainless steel automatic chronograph wristwatch
Autavia GMT, Ref:11630 GMT, Case No.262099, Circa 1976
17-jewel Cal.14 automatic movement signed on the bridge Heuer, matt black dial with luminous painted baton hour markers, printed outer minute track with red lines at 5 minute increments, dial signed Autavia Heuer GMT Automatic Chronograph, red baton hands with luminous inserts and centre red pointed chronograph hand, yellow centre GMT hand with luminous block towards the tip, date aperture at 6, white subsidiary dials at 3 and 9 for 30 minute with red accents and 12 hour recording, brushed and polished tonneau shaped stainless steel case with screw down back signed Heuer Leonidas inside, signed crown at 9 with fluted chronograph buttons at 2 and 4, fitted black leather strap with white stitching, case, dial and movement signed
42mm.
€1,400 - 1,700

The watch is powered by a Calibre 14 automatic movement which has evolved from the Calibre 12 movement incorporating the GMT additional hand function. It is signed Heuer CAL.14 on the bridge.

38

Heuer. A stainless steel automatic chronograph wristwatch
Autavia, Ref:1163 MH, Case No.142205, Circa 1971
17-jewel Cal.11 automatic movement signed on the bridge Heuer, matt black dial, applied polished faceted baton hour markers, printed outer minute track with red lines at 5 minute increments, dial signed Autavia Heuer Automatic Chronograph, polished steel baton hands with luminous inserts, date aperture at 6, subsidiary dials at 3 and 9 for 30 minute and 12 hour recording, brushed and polished tonneau shaped stainless steel case with screw down back signed Heuer Leonidas inside, Heuer signed crown at 9 with fluted chronograph pushers at 2 and 4, fitted black leather strap with Heuer buckle, case, dial and movement signed
42mm.
€1,200 - 1,800

At the end of 1969 we saw the first change to the Autavia dial with the word Chronomatic replaced by the Autavia model name. The Autavia and Heuer logos are now underneath 12 o'clock and the words Automatic Chronograph were printed on top of the date window to communicate well the new product invention. The crown is positioned on all Automatic Calibre 11 powered Heuer watches on the left side as there was no need for daily winding anymore.

39

Heuer. A stainless steel automatic chronograph bracelet watch
Autavia, Ref:1163 V 'Viceroy', Case No.358987, Circa 1974
17-jewel Cal.12 automatic movement signed on the bridge Heuer, matt black dial with applied polished faceted baton hour markers and printed outer minute track with red lines at 5 minute increments, dial signed Autavia Heuer Automatic Chronograph, polished steel baton hands with red tips and luminous inserts, date aperture at 6, subsidiary dials at 3 and 9 for 30 minute and 12 hour recording, brushed and polished tonneau shaped stainless steel case with screw down back signed Heuer Leonidas inside and engraved 'M1711', fitted stainless steel Heuer link bracelet with folding clasp, case, dial and movement signed
42mm.
€1,800 - 2,400

In 1972 Heuer launched a promotion with Viceroy cigarettes in which the public could buy an Autavia for \$88, instead of the normal retail price of \$200, when they sent in one end flap from a packet of Viceroy cigarettes. The model supplied featured the calibre 12 movement, black dial, red hands, white subsidiary dials and tachymeter bezel. The promotion was very popular so it ran from May to December in 1972.

Parnelli Jones, winner of the 1963 Indy 500, was sponsored by both Heuer and Viceroy and can be seen in the advertisements for the promotion which were printed in Life Magazine, Popular Science, and Popular Mechanics.

40

Heuer. A stainless steel automatic chronograph bracelet watch

Autavia, Ref:15630 T, Case No.291632, Circa 1972

17-jewel Cal.15 automatic movement signed on the bridge Heuer, black dial with applied gilt baton hour markers with luminous inserts and outer minute divisions signed Heuer Autavia Automatic Chronograph, orange baton hands with luminous inserts and orange chronograph hand, date aperture at 6, subsidiary dials at 3 and 10 for running seconds and 30 minute recording, brushed and polished steel tonneau shaped case with screw down back, signed crown at 9 and fluted chronograph pushers at 2 and 4, bi-directional rotating bezel with black tachymeter scale, fitted Heuer stainless steel bracelet with folding Heuer clasp, case, dial and movement signed

42mm.

€1,400 - 1,900

The Calibre 15 Autavia, with its distinctive asymmetric dial featuring running seconds at 10 and 30 minute recording at 3, was shortlived only appearing in the Heuer range for the 1972 model year. Due to the small volume of pieces sold, examples are rare, making it an unusual alternative to the relatively common Calibre 11 Autavias.

41

Heuer. A stainless steel automatic chronograph wristwatch

Carrera, Ref:1553 N, Case No.303712, Circa 1972

17-jewel Cal.15 automatic movement signed on the bridge Heuer, blue dial with silvered horizontal stripe running in to the subsidiary dial at 3, applied polished steel faceted baton hour markers, printed outer white minute track and raised black on white 500 to 60 tachymeter scale, white baton hands with luminous inserts and orange chronograph hand, dial signed Heuer Carrera Automatic Chronograph, date aperture at 6, subsidiary dials for 30 minute recording at 3 and running seconds at 10, brushed steel tonneau shaped case with screw down back signed Heuer Leonidas inside, polished plain bezel, Heuer signed crown at 9 and fluted chronograph pushers at 2 and 4, fitted black leather Rally strap and Heuer stainless steel buckle, case, dial and movement signed

38mm.

€1,400 - 1,700

In 1972 a new Carrera model with reference 1553 N was added to the portfolio with the new Calibre 15 movement. The N stands for the dark blue dial with contrasting silver subdials. The Calibre 15 features a small permanent second at 10 o'clock whilst the hours sub-register has been omitted. This led to an asymmetric new dial design and with this example reflected the Martini Racing colours. The Caliber 15 Carrera did not achieve substantial volumes therefore pieces with this stunning and creative dial are seldom offered on the collectors' market.

42

Heuer. A stainless steel automatic chronograph bracelet watch

Silverstone, Ref:110313 F, Case No.307196, Circa 1974

17-jewel Cal.12 automatic movement signed on the bridge Heuer, brown 'fumeburst' dial with block hour markers on raised outer minute divisions, white baton hands with luminous inserts and white chronograph hand, date aperture at 6, subsidiary dials at 3 and 9 for 30 minute and 12 hour recording, brushed and polished shaped stainless steel case with screw down back signed Heuer Leonidas inside, Heuer signed crown at 9 with fluted chronograph pushers at 2 and 4, fitted stainless steel Heuer link bracelet with folding Heuer clasp, case, dial and movement signed

42mm.

€2,400 - 3,000

The brown Silverstone appeared first in the 1974 Heuer catalogue and the dial has an amazing starburst finish continuing to the outer tension ring. The indices and hands have a beautiful matching patina adding additional charm to the light reactive dial.

43

Heuer. A stainless steel automatic chronograph bracelet watch

Silverstone, Ref:110313 B, Case No.309216, Circa 1974

17-jewel Cal.12 automatic movement signed on the bridge Heuer, blue dial, block hour markers on raised outer minute divisions, white baton hands with luminous inserts and white chronograph hand, date aperture at 6, subsidiary dials at 3 and 9 for 30 minute and 12 hour recording, brushed and polished shaped stainless steel case with screw down back signed Heuer Leonidas inside, Heuer signed crown at 9 with fluted chronograph pushers at 2 and 4, fitted stainless steel Heuer link bracelet with folding Heuer clasp, case, dial and movement signed

42mm.

€2,600 - 3,300

The Silverstone was meant to be an iconic design successor for the square shaped Monaco and a blue dial edition first appeared in the 1974 Heuer catalogue worn by Clay Regazzoni while sitting in the Ferrari 312 T Formula 1 car. The blue dial Silverstone consequently became called the 'Regazzoni' by collectors and is very much sought after. The product life cycle of the Silverstone was rather short and after three years production ceased, it was last shown in the 1977 catalogue.

The blue Silverstone offered here is with its original Heuer signed bracelet; exactly the same specification as worn by Clay Regazzoni. TAG Heuer reissued the blue and brown dial Silverstones to celebrate their 150th Anniversary in 2010.

44

Heuer. A stainless steel automatic chronograph watch

Calculator, Ref:110633, Circa 1972

17-jewel Cal.12 automatic movement signed on the bridge Heuer, dark blue dial, applied polished baton hour markers with luminous inserts, white printed outer minute divisions, dial signed Heuer Calculator Automatic Chronograph, baton hands with luminous inserts and white tips, white centre chronograph hand with luminous block towards the tip, date aperture at 6, subsidiary dials at 3 and 9 for 30 minute with white accents and 12 hour recording, brushed and polished stainless steel oversized case with large rotating bezel marked for calculations, screw down case back signed Heuer Leonidas inside, signed crown at 9 and twin fluted chronograph buttons at 2 and 4, case, dial and movement signed

45mm.

€1,200 - 1,800

Before the arrival of the integrated circuit and the computer, the slide rule represented quite the pinnacle of technology. Allowing the user to perform complex calculations quickly and being able to use one was quite a skill; for working out anything from the service to pay at a restaurant to the amount of fuel and range remaining for an aircraft. Although Brietling were probably the most well known for producing slide rule equipped watches, the Calculator joined the Heuer range in 1972 and was powered by both the calibre 12 and 15 movements during its production run.

48

45
Heuer. A black finished military issue 8-day dashboard timepiece
 Master Time Ref:6A/11146, Case No.3173, Circa 1968
 15-jewel Arognio Cal.28 8 day manual wind movement signed on the bridge Heuer Leonidas, matt black dial with luminous Arabic hour numerals and printed outer minute divisions, dial signed Master-Time Heuer 8 Days, luminous sword hands and white centre seconds hand, hacking function for centre seconds, black painted round case with red retaining screws at 2, 6 and 10, oversized knurled black winding crown at 12, snap on case back signed Heuer Leonidas, mounted to black powder coated Heuer back plate number 6B/6645-99-6361092 by three screws at 2, 6 and 10 with countersunk mounting holes at each corner, case, dial and movement signed
 55mm.
 €1,200 - 1,800

46
Heuer. A black finished military issue dashboard stopwatch
 Monte Carlo, Ref:6B/5209604, Case No.3998, Circa 1968
 7-jewel Cal.7714 manual wind movement signed on the bridge Heuer, matt black dial, luminous Arabic numerals at 5 minute intervals and printed outer minute divisions, dial signed Monte-Carlo Heuer, white chronograph hand and large white arrow hand for 60 minute recording, aperture at 6 for hour recording, black painted round case with retaining screws at 2, 6 and 10, snap on case back signed Heuer Leonidas, bi-directional rotating serrated bezel with luminous arrow on raised inner section and glass attached, oversized knurled black winding crown at 12 and black push button in the band between 1 and 2, mounted to black powder coated Heuer back plate number 6B/4193 by three screws at 2, 6 and 10 with countersunk mounting holes at each corner, case, dial and movement signed
 55mm.
 €1,200 - 1,800

A staple of the cockpit of nearly every 1960's rally car, the combination of the Heuer Master Time and Monte Carlo (there was a special mounting plate to hold both) together with a Curta Calculator, allowed navigators to perform complex speed/time/distance calculations at lightning speed. Adorning the dashboards of everything from the works Mini Coopers to Porsche 911s, they eventually found their way into military aircrafts, including the RN and RAF VTOL Harrier.

The Master Time and Monte Carlo featured here are ex-British Military items, clear from the case markings and the black finish to the cases and mounting plates.

47
Heuer. A chrome finished 8-day dashboard timepiece
 Navia, Case No.22461, Circa 1963
 15-jewel Arognio Cal.28 8 day manual wind movement signed on the bridge Heuer Leonidas, matt black dial with luminous Arabic hour numerals and printed outer minute divisions, dial signed Navia Heuer 8 Days, luminous sword hands and white centre seconds hand, hacking function for centre seconds, chrome plated round case with oversized knurled winding crown at 12, screw down case back signed Ed Heuer inside, integrated mounting flange with mounting holes at 2, 4, 8 and 10, case, dial and movement signed
 55mm.
 €960 - 1,400

Designed to be fitted to a boat dashboard, the Navia features a waterproof type case to protect the internals from nautical environments. The movement is the same as fitted to the Master-Time, the 15-jewel 8 day Arognio Cal.28 and the piece would make a fitting addition to the dashboard of a Riva Aquarama or other classic wooden hulled speedboat.

48
Hanhart. A rare and unusual timing board with two single button stopwatches
 Ferrari-Duostop, Circa 1960
 Metallic light blue coated aluminium board, fitted with two Hanhart single button stopwatches, German made, each with white dial, red Arabic numerals, outer 1/10th second track, blued steel hands, subsidiary dial at 12 with red racing style outer divisions for 15 minute recording, dial signed, held in sprung clips with chromed security caps, activated by a single lever mechanism on the right of the board with lock for transport and storage, fitted pen clip, brown leather neck strap and timing sheet clips, black placque to the top left corner signed Ferrari-Duostop, together with later Hanhart 'Robotimer' box and a selection of literature
 40.5 x 32cm
 €3,600 - 6,000

In the days before the prancing horse adorned everything from pens to fragrances to childrens toys and all in between, The Hanhart Ferrari-Duostop represented a rare, early instance of Ferrari putting their brand on something other than a car.

During the late 1950's and 1960's Hanhart produced a number of timing devices for the factory Ferrari team, including the Addi-Stop, Duostop, Two-Stop and Tri-Stop which were neck worn devices to aid lap timing. Although all models of Hanhart Ferraris are rare in their own right, the clipboard featured here is especially so with very little information available on other examples. With its original leather neck strap and the movements having recently been serviced, this lot is ideal for the Ferrari collector who has everything and could see great use in regularity events or on the pit wall at Goodwood Revival.
